

Laminated Colour Print Media

UPC-24LA / UPC-24SA / UPC-R80MD

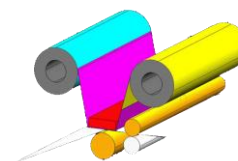

The Sony Medical Colour Printers, UP-25MD, UP-D25MD and UP-DR80MD employ Sony's laminating technology. The printer coats each print with a protective layer that is resistant to light, heat, water, humidity and fingerprints at the end of the printing process.

Benefits of lamination layer :

- Excellent protection for your prints**

- Water and liquid resistant
- Light resistant
- Heat resistant
- Fingerprint resistant

Dye-sublimation
Technology

4th layer of lamination

- and **high durability**, lasting over **100 years***
